This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

- **Recommendations (optional):** In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.
- Add least privilege access and separation of duties to limit unnecessary access to sensitive systems and data.
- Establish a disaster recovery plan and begin performing regular, automated backups of all critical information.
- Implement encryption to protect customer credit card data and other sensitive information.

- Deploy an Intrusion Detection System (IDS) to monitor the network for suspicious or malicious activity.
- Adopt a centralized password management system and update password policy requirements to meet modern standards.
- Set a regular schedule for monitoring and maintaining legacy systems to ensure consistent oversight.

These targeted improvements will help Botium Toys reduce risk, improve operational resilience, and move closer to meeting PCI DSS, GDPR, and SOC compliance expectations.
